

# Sprinkler System Wire

18 AWG, Multi-Conductor

**Made to Your Specifications**

**30 Volts**

**60°C**

## APPLICATIONS

Cerrowire Sprinkler System Wire is 18 AWG, sunlight resistant and made to customer specifications with 4, 5, 7, or 10 conductors, suitable for direct burial on applications up to 30 volts, including field and central controls for underground sprinkler systems. 50', 100' and 500' lengths.

## ASSEMBLY

6 to 10 soft bare copper conductors (to order) are twisted without fillers to a LHL. Insulation is 0.016" nominal-wall SR-PVC, and jacket is 0.025" nominal-wall black PVC with a parallel ripcord. 4- and 5-conductor constructions are parallel.

## INDUSTRY STANDARDS/CERTIFICATIONS

UL® Direct Burial Sprinkler Systems Wire  
C(UL) Lawn Sprinkler Systems Wire  
EU RoHS Directive
