Every 2.4 m (8 feet)
on 25' cord and
Every 4.8 m (16 feet)
on 50' cord.**

Insulated 600 V/STW

Indoor/Outdoor Use

APPLICATIONS

With its multiple outlets placed every 16 feet (50' length) or 8 feet (25' length), electraTrac® Multi-Outlet Cord is ideal for contractor jobs, power tools, temporary job-site lighting and home applications. Its lighted outlets indicate that power is on, and weather guards protect outlets when not in use. Patented anchors make electraTrac cord perfect for mounting to walls, framing and scaffolding indoors and out.
