Copper Scrap Return Program

**RECYCLE WITH CERROWIRE –
WE PAY MORE PER POUND!**

Steps:

1. Collect copper building wire scrap.
2. When your scrap shipment is ready, contact your Cerrowire customer service representative at 800.523.3869. We will lock in the spot COMEX copper price as a base for the return transaction.
3. Ship the container freight prepaid to the scrap processing location we provide to you. Customers in the West ship to Utah and customers in the East ship to Indiana.
4. After the yield has been verified by the scrap processor, Cerrowire will issue a credit memo at your previously locked-in COMEX copper price, minus a \$0.35/lb. processing fee. This is a better price than you'll find locally. The credit memo will be issued 30-45 days after shipment.

**RECYCLE WHEREVER
YOU WORK!**

Terms and Conditions:

- Available to our Cerrowire distribution partners with an established account.
- Send only copper building wire for recycling.
- **DO NOT** send any wire or cable containing aluminum, tin, armored coax, lead, fiberglass, or telephone wire.
- **DO NOT** send reels or packaging materials.
- Please contact Cerrowire if you need a scrap wire container.
- Contamination of the scrap copper wire by any of the materials listed above will result in an increase in the processing fee paid by the scrap producer.
