THE FAST TRACK FOR CIRCUIT

A ONE-PERSON JOB

Electricians need innovations so they can keep working... at a safe distance from each other. CerroPack lets you pull circuit-sized THHN/THWN-2 on the ground or on a lift. At less than 30 pounds, it's lighter and easier to transport than traditional put-ups. You can make longer pulls with less fatigue.

Comfortably carry CerroPack right to the raceway. Line up the packs in any configuration, then pull all your circuit at once. And the best part, with REELEX® technology, it's always tangle-free. CerroPack runs fast in the straightaways and pulls smooth through the turns. CerroPack pays out just the amount you need, preventing waste, while keeping what you didn't use clean and easy to transport to the next job.

When you start your job with CerroPack, you're on the fast track to get it done right.

FEATURES & BENEFITS:

- 14, 12 & 10-gauge
- Available in solid or stranded
- Easier to transport
- Faster set up
- Pulls straight and clean every time
- Labor saving
- Less waste
- No tension, twists or tangles
- Right size for mid-length pulls
- Convenient storage
- Wire stays clean and protected
- No special equipment needed

AWG	LENGTH	WEIGHT
14	1500 ft	23 lbs
12	1250 ft	29 lbs
10	750 ft	28 lbs

Available colors:*

- Black
- White
- Red
- Orange
- Yellow
- Green
- Blue
- Brown
- Grey

*striping and other colors available
