Reel-N-Reel

Easy Pulls, No Overspin

Cerrowire's Reel-N-Reel is a highly mobile, easy cable-pulling reel that automatically prevents wire overspin, eliminating the problem of wire pooling on the ground. It loads like a traditional wooden reel, but the innovative hub-locking design prevents backspin during loading, transport, and payout—ideal for vertical pulls!

Productivity-Boosting Features:

- No tools or jack stands needed
- Three convenient sizes (see below)
- All sizes can carry up to 4,000 lbs of wire
- Directional marking for loading/unloading cable
- Custom factory stencil available to mark your Reel-N-Reels
- Reusable up to 60 times

Product Number	Outer Diameter, Inner Diameter, Traverse Length, Core Diameter	Pallet L x W	Reel Weight Lbs.	Reel & Pallet Weight Lbs.
80-10036	36"-32" x 22" x 16"	36" x 32"	188	262
